

# QUALITY POLICY STATEMENT

Barr Manufacturing Division incorporating Solway Structural Steel and Solway Precast Concrete is committed to providing a service that exceeds the requirements and expectations of clients and customers by utilising best design, manufacturing and installation practices.

In order to meet client and customer expectations, Barr Manufacturing will utilise all employees' skills in partnership with designers, suppliers and sub-contractors to develop continuous improvements in delivering a quality service.

Senior management will establish objectives in order to develop and improve the Company's performance. In addition, these will be reviewed, as required, based on Company performance, customer feedback and as a result of management reviews.

Senior Management within Barr Manufacturing are committed to:

- The implementation, maintenance and development of a Quality Management System (QMS) in accordance with ISO 9001: 2008 requirements.
- Review of the QMS in order to ensure ongoing suitability and also to continually improve its effectiveness.
- Ensuring that staff are provided with the necessary competencies to achieve their objectives, in accordance with the Company objectives and targets.
- Ensuring that objectives are communicated to employees to allow them to be achieved effectively.
- Ensuring that personnel are trained in the elements of the QMS and are responsible for ensuring their activities are performed in accordance with requirements.
